

Courtney Ko

San Francisco, CA | courtneyko.com | linkedin.com/in/courtneythko

Summary

Product leader and startup operator focused on AI products, developer ecosystems, and technical adoption. Built 0-to-1 products and communities, launched developer programs, and translated complex workflows into products people use.

Experience

AI Valley

Chief Operating Officer

Sep 2025 – Present

San Francisco, CA

- Scaled an AI developer community to 10,000+ engineers and founders through hackathons, workshops, and events.
- Identified builder needs and designed high-signal technical programming across AI events and workshops.
- Partnered with AI infrastructure companies to drive product awareness through hands-on developer experiences.
- Led sponsor, partner, and community operations across large-scale technical events.
- Launched San Francisco's largest women-focused AI hackathon, generating 500+ registrations.

NVIDIA

Software Operations Business Analyst

Oct 2025 – Present

Santa Clara, CA

- Identified bottlenecks across EMR and sales order workflows and shipped automation to improve operational scale.
- Built a self-service sales order automation platform, reducing processing time from 2 hours to 30 minutes.
- Enabled 3+ team members to independently generate sales orders through repeatable self-serve workflows.
- Partnered with operations, sales, and systems stakeholders to turn workflow pain points into adopted tools.

Pearle

Founder / Product Lead

Mar 2025 – Sep 2025

San Francisco, CA

- Founded and launched an AI group travel platform, owning product vision, roadmap, and core user experience.
- Designed LLM-powered itinerary generation workflows using structured data pipelines.
- Conducted user research to identify travel planning pain points and prioritize product workflows.
- Delivered MVP in 10 weeks through rapid prioritization, iteration, and execution.

TipBrightly

Product Manager

Nov 2024 – Oct 2025

Mountain View, CA

- Led product strategy and execution for analytics, retention, and customer experience initiatives.
- Shipped a real-time analytics dashboard using Python and SQL, reducing reporting latency by 96%.
- Built an AI agent that analyzed behavioral signals to flag churn risk and support proactive retention efforts.
- Ran onboarding and activation experiments that improved satisfaction and supported an NPS of 78.

TipBrightly

Founding Product Manager

Jun 2020 – Aug 2021

Mountain View, CA

- Led a 0-to-1 platform redesign driving 919% transaction growth from \$9.7K to \$99K.
- Owned payments, permissions, and revenue-critical transactional workflows.
- Built instrumentation to track activation, retention, and revenue growth metrics.

Wells Fargo

Design Producer / Product Design Program Manager

Aug 2021 – Mar 2023

San Francisco, CA

- Led API and SDK platform delivery across product, engineering, design, and 10+ stakeholders.
- Standardized 100+ API documentation assets across 25+ products to reduce onboarding friction.
- Translated complex platform capabilities into clearer developer-facing experiences.
